

**VIDYA PRATISHTHAN'S DR. CYRUS POONAWALLA SCHOOL (CBSE), BARAMATI**  
**ANNUAL CURRICULUM PLANNING, 2024–25**

**COMPUTER STUDIES**

**STD: VIII**

Sr. No.	Content/ Topic	Month and No. of Working Days	No. of Days for Teaching	Learning Objectives	Expected Learning Outcome	Activity/Practical	Teaching Aids	Assessment
1	1. Networkin g Concepts	June 15	3	<p>To enable the students to study about Computer networks, types of networks, network topology and network security.</p> 	<p>To develop student's ability to understand the terminology and components associated with networks.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Students will draw different topologies on a chart and explain them in the class.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet.</p>
2	2. Log on to Access	July 25	3	<p>To enable the students to study the Types of databases, Components of MS Access, Creating a database, Data types in Access.</p> 	<p>To develop student's ability to understand the database concepts and explore the Microsoft Access environment.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Students will create a table in MS Access and displaying the details of students information.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet.</p>

3	3. Queries, Forms and Reports in Access	August 24	4	<p>To enable the students to study how to set a relationship between tables, Queries, Forms and Reports.</p> 	<p>To develop student's ability to learn how to create simple and effective queries, create meaningful reports and use forms.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Students will create a table named 'Students Details' (Marks of 6 digits subjects). Create a query and report using the table. (Pg no 62 in the textbook).</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet and lab assignments.</p>
4	4. Images, Links and Frames in HTML 5	October 16	6	<p>To enable the students to study how to insert images, link web pages, inserting audio and video, frames and iframes.</p> 	<p>To develop student's ability to understand how to divide browser window into multiple sections and load separate HTML document.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Students will create an HTML document. They will have to do the following in the document: Add an image, Add an audio, Add an Inline frame</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet and lab assignments.</p>
5	5. Learning Photoshop CS6	November 19	6	<p>To enable the students to study the components of Photoshop CS6 window, Panels. Creating, Saving and Closing a file. Study about Selection Tools, Common Painting Tools.</p> 	<p>To develop student's ability to learn Photoshop interface and selection.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Create a sunset scenery in Photoshop CS6 using the tools you have learnt in the Chapter.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based Worksheet and lab assignments.</p>

6	6. More on Photoshop	December 21	6	<p>To enable the students to study about the Painting tools, Retouching tools, Type tool, drawing tools and layers.</p> 	<p>To develop student's ability to learn editing, retouching, creating images and adding effects in Photoshop.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. An image will be given/saved in the computer. Students will be editing the image, fixing the flaws, entering text and creating a duplicate of the image.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet and lab assignments.</p>
7	7. Statements In Python	January 23	6	<p>To enable the students to study about the Control statements and types of control statements.</p> 	<p>To develop student's ability to learn how to set up condition using statements in Python.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Write a program to make a simple calculator in python.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet and lab assignments.</p>
8	8. Iterative Statements	February 23	6	<p>To enable the students to study different Iterative Statements.</p> 	<p>To develop student's ability to learn coding of iterative statements.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy and Problem-Solving Skills</p>	<p>1. Write a program to print squares of first 5 natural numbers and the cube of the 5<sup>th</sup> natural number.</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Practical based worksheet and lab assignments.</p>

9	9. Cutting-Edge Technologies	April 19	5	<p>To enable the students to study about the Artificial Intelligence, Augmented Reality, Cloud computing and Big Data.</p> 	<p>To develop student's ability to learn about new emerging technologies, techniques and achievements.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy</p>	<p>1. Write the applications of IoT (Internet of Things).</p>	<p>Demonstration will be shown on the ICR.</p>	<p>Group Discussion.</p>
10	10. Internet Safety	April 19	3	<p>To enable the students to study about the Data privacy, Responsible Behavior, Online banking, Safety measures and email courtesy.</p> 	<p>To develop student's ability to learn to become responsible digital citizen and take part in online community life in an ethical and respectful way.</p> <p><b>21<sup>st</sup> Century Skills</b> Technology Literacy and Social Skills</p>	<p>Group Discussions</p> <ol style="list-style-type: none"> <li>1. Increasing use of social media has also raised the number of Cybercrimes.</li> <li>2. Responsible Online Behavior can effectively prevent cybercrimes.</li> </ol>	<p>Demonstration will be shown on the ICR.</p>	<p>Group Discussion.</p>
